

# Tells Difference Between 'Assertive' and 'Aggressive'

BY GERRY WALSH

Most men complain about their bossy and aggressive child. Women in the past were always bossy and aggressive. They made no demands, they were always sweet and submissive, they always agreed with their husbands.

THE SHREW has always been with us. In "The Taming of the Shrew," Shakespeare presents the prototype. The woman who nagged her very superior husband, you may recall, was Xantippe, wife of the staid and wise Gracian, and that was more than 2,000 years ago.

(However, we must consider if he was married to a truly superior man. Socrates certainly was not emotionally insecure, so he was not disturbed or intimidated by his wife. The insecure male of today and it does seem that they are more numerous than before - is only comfortable with a woman who is meek, humble and submissive.)

But type of woman is a fluid, for while passing as an adult, the remain childlike. So-called "bossy" wives usually are merely assertive - a mature characteristic. They are saying, "This is what I think and feel - not the same as saying 'I'm wrong, but you had better change or else'."

Many men are so unsure of themselves that they can't be comfortable with anyone who does not think and feel the same way that they do. A woman is a human being with a right to think and feel independently of anyone's opinion.

Traditionally in our patriarchal society, the male is superior, so it is with frustration that he accepts a superior wife, if he accepts her at all.

THOUGH girls were once trained from childhood to be obedient, they are now trained from childhood to be assertive.

submissive, this is no longer true. Dependence is not a natural state for any adult child, wife, and yet there are those that they do not want an assertive one, so there is an unresolved problem - because there's never a husband.

A woman has a right to the full use of her talents, as well as a right to express her opinions. It is true that many women are too fearful to speak their minds to anyone except their spouse, that is a serious problem too.

It is really the proud woman who is overly confident to please her peers, as she once tried to please her parents.

The never voices her inner beliefs or standards, until at last she doesn't know what she wants.

This woman never will be happy, for she'll never please in a blind, no-choice existence. No right-thinking, loving husband wants this kind of a wife.

Be assertive, not aggressive; there is a difference.

DISPLAYING school presents are, from left, Kathryn Fairbairn, 10, St. George, Mount Prospect; Sue Hing, 11, N. Randall; Mount Prospect; Mary Ann, 13, E. Eastman Arlington Heights. They are members of Canon Fritz Scott & Co. Super College Band, which last week for the 10th year began to offer advice to colleges on what to wear. The three girls in the photo are modeling their board uniforms, designed by Erna Pagan. The College Band made its last performance on Saturday from 11:30 to 1:30 p.m. at the Bandshell stage through Aug. 31. Other local girls on the board are Karen Agan, Mount Prospect; Barbara Schneider, Mount Prospect; Patricia Medler, Arlington Heights and Shirley Shale, Prospect Heights.

## Day of HOME

## Summertime Table Setting's Simple

Summer provides a simple outdoor setting. With the use of everyday items, you can set a pretty patio party table. Every section of the Garden Club of Mount Prospect has members serve as hostesses. It is a blend of no-choice existence. No right-thinking, loving husband wants this kind of a wife.

Be assertive, not aggressive; there is a difference.

ORANGE burlap, sun hats, flower pots and garden accessories can combine with fresh flowers for a simple summer setting.

## Legislators Fear Delay In Flood Projects Here

BY LARRY WILLS

Third District legislators are expressing concern over whether the \$1.4 million state fund for Weller Creek improvement will be released by the governor this year.

Both Rep. Eugene Schickman (R-Arlington Heights) and Rep. David Regan (R-Mount Prospect) have said they are "optimistic" on the issue of the project to alleviate flooding in the northern suburbs, now that the present financial situation is under review by the Governor's Assembly.

The possibility of the funds not being released was raised after Gov. Samuel Shapiro spoke to both Mount Prospect and Arlington Heights last week to avoid an estimated \$125 million deficit in the state budget by the end of this year next summer.

SHAPIRO recommended taking \$50 million out of the municipalities' share of state funds to make up the deficit. Under Shapiro's plan, the money would be paid back by 1971 or 1972.

Funds for Weller Creek were frozen two months ago along with all other capital improvements while the fiscal situation was investigated.

Regan and State Public Works Director Francis

Lorens had expected the funds to be released at any time since the Weller Creek project was given top priority in the state. Now speculation is that the money might not be released at all.

Schickman said that the money cannot be released until the General Assembly decides how to deal with the deficit. Action is expected this week on whether the motor fuel tax money will be withheld from the next three years.

THE SITUATION is forcing the Republican representatives into a political dilemma. Schickman said. The municipalities in the 3d District are against the state taking away their funds which are slated for municipal street and bridge improvements. But if the bill is presented by Shapiro is not passed, the Weller Creek improvement and a proposed similar improvement for Salt Creek will not be started this year.

The governor emphasized in his speech that not a single state highway construction program would be stopped under his proposal. Schickman said, however, that no mention was made of pending capital improvements, which he considers as im-

portant as highway improvements.

ALTHOUGH Schickman would not speculate if the Shapiro proposal would pass, Regan said he thought there was no other solution at this time.

Regan said that he had done some research on the problem and believes that very little of the fund tax funds would have to be withheld from the municipalities if the governor would institute an adequate auxiliary program.

"As to the fate of Weller Creek," there are six or eight projects in the area of the project and all but two are supported by Democrats," Regan said. He added that he felt that if one of the Democratic support programs is released when those for Salt Creek and Weller Creek are not.

Rep. Eugene Chapman (D-Arlington Heights) was more optimistic on the future of the projects here.

"I would not despair on Weller and Salt Creeks," he said. Although some projects might be cut from the capital improvement budget, he said, he expected that there would be enough money for the projects here.

## That Proposed State Funds Cut

## Streets, Bridges But Not Roads Could Suffer

## Psychedelic Art?

No, it's a nightmare scene of a warping sign resembling a section of beat-bashed pavement as Quat and Kirschhoff in Rolling Meadows. The entire effect was caused by the brightness of an auto parked in front of the camera not far from a taxicab.

## Sprinkling Ban Crackdown

An intensive drive to enforce village regulations relating to sprinkling is under way in Arlington Heights, according to Village Manager L. A. Hanson.

"The ordinance which stipulates that residents living on the side of the street with even house numbers may sprinkle on even-number days of the month, and those with odd house numbers on the odd days has been well publicized," said Hanson. "If this rule is followed there is enough water for everyone."

"Police have been issuing warnings to violators," he said, "but now they are taking more drastic action. There is a provision for a \$25 fine."

It is not a question of an inadequate water supply in the village, Hanson explained, but rather the inability of pumping facilities to keep up with the extremely heavy demand brought on by the extended hot weather.

In the winter months, he said, the village uses about six million gallons of water in 24 hours. During most other times the year consumption averages around 750 million gallons. But with temperatures climbing into the 90s, water is being pumped at the rate of 12 million gallons a day in the village co-operate by "12 residents of the village co-operate by observing the sprinkling regulations — and we are not unreasonable — we should have no serious water supply problems," Hanson said.

## Gripe Of The Day

People who park their cars in driveways and block the sidewalk, N.M.

## Taxi Fares To Go Up

The Arlington Heights Village board authorized the City Transportation Co. to raise the fare for taxi service to the village. The hike amounts to 10 cents for the first half mile and an additional four cents for every extra passenger.

The rate will go up from \$1.50 for the first half mile, and from 10 to 20 cents for each extra passenger for a mile.

The state's proposed 560 million dollar in motor fuel tax funds will not affect state highway funds. The money will be used for municipal street and bridge improvements.

George Matich, district engineer of the state Division of Highways, said that none of the highway projects planned in the northern suburbs area will be affected by the cut in state funds.

Plans for the highway projects planned in the vicinity are the widening of Golf, Route 54, Prospect and Arlington Hills. The county highway department's widening of Eisenhower Rd. between Mount Prospect and the village of Bensenville Rd. between Mount Prospect and Bensenville Rd. will not be affected.

The motor fuel tax is increased, Matich said, are intended for the use by municipalities for the improvement of streets and bridges.

Municipal officials may need not to use those funds earmarked for their own use but the local accumulations should be used for significant improvement projects.

Raymond, assistant to the highway division's chief engineer, said this is a common precaution.

THE STATE Legislature, Brown said, is to effect a particular area of the project are approved by the state, and the contracts are awarded.

Both March's and Brown's statements contradicted an earlier report by Gerald W. Cavanaugh, president of the Chicago Motor Club, that the village of the first tax funds would curtail road improvements in the state.

Cavanaugh described the use of the funds taken from the state to the present prior to handle state-wide road improvements in the state.

The motor club executive suggested that instead of an additional one cent a gallon on gasoline, two cents on gallon on diesel fuel be added to the present prior to handle state-wide road improvements in the state.

He said last June 25 by the state highway study commission.

MUNICIPALITIES will feel the pinch if funds are withheld, Arlington Heights Village Manager L. A. Hanson said.

He said the village has about \$750,000 accumulated in the fund and if the state is allowed to borrow the money until 1971, as planned, it will curtail plans for new village projects.

If it took years for the village to accumulate all this money, I would look with suspicion on the projection that the money would be replaced by 1971 or 1972," he said.

Cavanaugh has asked the state to the past to turn the money over to them and not act as custodian. The state has been reluctant to do this.

He said the state collects interest on the "deposited" money, Hanson said.

LAST MONTH the Mount Prospect Village Board Trustees handed off the state's action by passing five resolutions on specific projects totaling over \$100,000.

Village Manager Robert Moore said that he will give the village a legal leave to force the state to pay up before Mount Prospect.

Proponent's share goes into the state's fund. Hanson said. Hanson's action, which could be considered to be a "cash" for municipalities in the state, if the state is allowed to borrow the money until 1971, as planned, it will curtail plans for new village projects.

## In the Woods: Children Experience Worldwide Backgrounds

BY JAN BONNE

Last is a letter

Hung March Chu is from North Vietnam. Hung Shin from Korea. Kyuichi Hirotsu from Japan, and Masao Yoshimoto from Hawaii.

Camp Kenberg in Palatine, draws on all these backgrounds the summer to help give city youngsters an awareness of "when you see the world they normally know."

"I'd always used the word in their eyes as they sit around a campfire, then you know who you're here," said King Shin's American wife, Sharon.

The couple met last summer when both were Kenberg counselors. Mrs. Shin is a fifth grade teacher in Oak Park, Ill. She is currently the state's degree from Northern Illinois University business administration next June.

Shin, incidentally, already knows three brothers' degrees in language and psychology from Korea, one in economics from Wisconsin, and one in American history from New York University, and is a graduate of the University of Chicago.

"We try to encourage a fighting spirit in these youngsters," he said, "and give them something to show them how to live. We want them to work off their energy constructively."

THERE IS another reason why several married couples head up the cabin units. By just being together, they give children the father-mother image that sometimes may be lacking in their home environment.

Now, Shin's findings were echoed by his former college roommates, Hung March Chu of North Vietnam, also a Kenberg counselor.

Hung March Chu saw his father killed by the Communists. He fled his country in 1954, leaving most of his family behind. He ended in Saigon, and received his bachelor's degree last summer from St. Joseph College in Remond, Ind. He

too is a graduate assistant in business administration at Northern Illinois University.

HEADED BACK to the Far East in September is Kyuichi Hirotsu from Sasebo City, Japan, who describes himself as that country's "future prime minister."

He spent some time in Florida with "upper-class" Americans; now he chose Kenberg for his work with disadvantaged children. "In this way," Hirotsu said, "I feel I have learned much about America. I've also had a chance to see Japan from the political point of view."

NOT ALL the counselors at Kenberg are foreign students. One, Richard Cooke, of Chicago, grew up a mile from Midway Airport, plans to fly short-haul and transport a to suburban Chicago.

He would really prefer to teach in the inner city, though. "By working here, I can learn more about people along with these children. Then a year of teaching experience."

Even Camp Kenberg's permanent staff have "diverse" backgrounds. One, a business administration major from Chicago, had last Thursday dancing in a Grand Park concert as a member of the 57th Street Orchestra.

Others of Kenberg's permanent population are Rudy and Linda Records, who live year-round in the forest preserve in Melrose, Ill. Records runs an outdoor education program with Arlington-area school districts. Lee is the camp's business manager.

RICHARD COOKE and his mother, Mrs. Mary Cooke, previously with the Kenberg camp, are currently at another camp in Melrose, Ill. Cooke is currently in local agencies.

Camp Kenberg's director, Dorothy Chaff, for more than 20 years, has run in facilities and programs. She has seen it grow to become the service agency for the Chicago Commons Association, giving it the chance to get the experience.

Here's your guide to carefree motoring ... how to make sure your upcoming motor trips are safe and trouble free as a car in prime condition can make them.

## An untuned car is trouble. Trouble you can't afford.

Worn spark plugs in an untuned engine are trouble. Breakdown trouble. Passing and load-hauling trouble. Gas mileage trouble. Trouble enough to spoil your hard-earned vacation.

• It's trouble you can avoid by getting a Champion Tune-Up now. Here's how we know.

We tested hundreds of cars including Chevrolets, Fords, Plymouths, Ramblers and other makes that had gone over 10,000 miles without a tune-up. Each of these cars was given a Champion Tune-Up to new set of Champion spark plugs plus any other basic tune-up items needed. The U.S. Auto Club certified the test results.

The results were just what you'd want. Increased power for safer passing and an average gas savings of over a gallon per tankful.

But the most important thing for you to remember is that a well tuned car ensures you of dependable, trouble-free motoring this summer.

Why risk summer driving trouble? Get a Champion Tune-Up at least once a year or every 10,000 miles.

Champion spark plugs meet or exceed warranty requirements of all vehicle and engine manufacturers.

## Car Care Required For Warranty Benefits

Contrary to what many owners may think, the five-year or 50,000-mile warranty on American cars is not necessarily a "pay-off" if trouble comes.

Under the new warranty, owners are required to have certain preventive maintenance services performed as outlined in their owner's manual to keep the warranty in force.

THESE SERVICES fall into two groups. One, service to be performed at specific mileage intervals. Two, services that should be performed on a "as needed" basis.

As far as the warranty is concerned, maintenance services can be performed at a garage, service station, or dealership—whichever is most convenient.

All that's needed is to have the service man furnish verification of the work done, the material used and the date and mileage the service was performed so that the selling dealer can validate the warranty.

THE IMPORTANCE of the regularly-scheduled service such as oil changes, chassis lubric and air cleaner service speak for themselves.

The so-called unscheduled services, those whose frequency depends totally on how and where the vehicle operates, usually include such things as brake system checks, engine tune-ups and wheel alignment, to name a few.

A tune-up every year or 10,000 miles is a particularly important maintenance service. Operating a car in an out-of-tune condition can rapidly accelerate engine wear.

FOR EXAMPLE, worn plugs and points can lead to partial combustion. Some of the unburned fuel goes past the piston, washes the protective film of oil from the cylinder walls, and produces undue scuffing of the cylinders and pistons.

Unburned fuel gets down in the crankcase and dilutes the

oil, the oil can't do its job of protecting bearing surfaces, keeping valve lifters working freely and quietly.

ALSO RELATED to partial combustion is varnish on valve stems and guides causing sticking valves. If a piston should strike a partially open valve, a broken piston, a bent valve, and an expensive repair bill may result.

Far beyond keeping your

warranty in force, preventive care of your motor car is a good way to make sure you'll get the safe and useful life out of your car that you've paid for.

In fact, the higher the value, most dealers advise a well-tuned car can pay you back most of the extra dollar you've invested in an enjoyable, worry-free driving.

# 10 Tips on Towing a Camping Trailer

ALL TOO MANY

THE DAY

Page 1

Towing a trailer may be second nature to the professional driver, but to the casual driver, it can be a real headache. Here are 10 tips to help you tow a trailer safely and comfortably.

1. **PREPARE YOUR TRAILER.** Before you tow, make sure the trailer is properly hitched and that the brakes are working. Check the tire pressure and the oil level.

2. **USE THE CORRECT GEAR.** When towing, use a lower gear than you would for normal driving. This will help you maintain a steady speed and prevent the engine from overheating.

3. **MAINTAIN A SAFE DISTANCE.** When towing, you need more space than you would for a regular car. Make sure you have enough room to stop and maneuver.

4. **BE AWARE OF YOUR TRAILER'S WEIGHT.** Make sure you know how much your trailer weighs and that your tow vehicle is capable of handling it.

5. **USE THE BRAKES PROPERLY.** When towing, you need to use the brakes more often and more firmly than you would for a regular car.

6. **BE AWARE OF THE TRAILER'S SWAY.** If the trailer starts to sway, don't panic. Instead, take your foot off the accelerator and gently steer in the opposite direction.

If Your Car Ran On Money You Might Be Throwing Away \$

If your car's engine runs on money instead of gasoline, chances are you'll be throwing away up to 50 cents every gallon.

Based on findings of a recent test program conducted by Champion Spark Plug Company, the average motorist is wasting about a gallon and a half of gasoline per gallon.

The test measured gasoline consumption before and after tune-up. Using a unique portable dynamometer manufactured by Laboratory Equipment Corp., Mooresville, Indiana, the Champion program also proved the effects of tune-up on power and passing performance.

Champion's Automotive Technical Service Department... "One unfortunate fact is that the motorist doesn't realize his car's performance and economy is suffering.

"One unfortunate fact is that the motorist doesn't realize his car's performance and economy is suffering. He usually wonders 'Okey'."

Champion mentioned that 60 percent of all U.S. cars are in need of tune-up at any given time.

THE TYPICAL U.S.

driver's indifference to engine maintenance was shown in a recent Champion survey on why motorists neglect tune-up. Major reasons for neglect were: 1) they think they don't need it; 2) they are concerned about the cost; and 3) they find it inconvenient.

Champion remarked, "I feel these attitudes stem from the motorist's not being aware of tune-up benefits. For example, nearly 60 percent failed to mention better starting and seventy percent of the respondents did not list improved gas economy and performance as benefits."

Only four percent saw any safety implications despite the safety advantages resulting from proper tune-up.

Champion's Automotive Technical Service Department... "One unfortunate fact is that the motorist doesn't realize his car's performance and economy is suffering.

Champion mentioned that 60 percent of all U.S. cars are in need of tune-up at any given time.

## gionnaires n Sunday

Craighead scored on a single and two runs in the third inning. Unable to spark a rally, it was the end of the W scoring. Park Ridge, fortunately, came up with four additional runs after to sweep double-header.

### Prospect Hits Senior Vikings Top Colts 10-4

In a Major division the Braves cameu seven runs in the 5 frame to pin a 10-5 the Tigers. Tiger hurler Schoolcraft rapped a tripper in the second with one on to lead the

## For 2 Collegians:

# Park Work More Than A

BY MAXINE TYMA

Working for the Arlington Heights Park District for 10 weeks during the summer is more than a job for college students Sally Luetich and

Len Freiberger. Their jobs as playground supervisors and recreation leaders are leading them to a bachelors degree in recreation. As field students in recreation, they are employed

by the park district and their supervisors. Luetich said she would like to pursue an advanced degree in recreation in the future, but she would like to spend time in a capacity similar to the one she has now — one which offers personal contact with residents of a community.

Freiberger, 22, will earn his first summer of a recreation administration program at Indiana State University. He is a resident of East

Chicago, Ind.

Luetich said she would like to pursue an advanced degree in recreation in the future, but she would like to spend time in a capacity similar to the one she has now — one which offers personal contact with residents of a community.

Freiberger, 22, will earn his first summer of a recreation administration program at Indiana State University. He is a resident of East

Chicago, Ind.

Freiberger plans to enter the Air Force after graduation

and hopes to continue his career in recreation.

Both field students are playground supervisors at Pioneer Park, which is a supervisor for the half day of the day.

## \$1.5 Million Bond Issue For Sewer Upgrading OK'd

BY VINCE GIORNO

The Arlington Heights village board Monday authorized the sale of \$1.5 million in sewer and water revenue bonds for improvement of sewer and water distribution systems in the village.

The plan will include the building of a retention basin for storm water southeast of Wiles and Kirchoff Rd., several miles of new storm sewers, the sinking of two deep wells and two reservoirs. One of the deep wells will be located southeast of Dundee Rd. and Illinois St.

The other will be northwest of Buffalo Grove and Dundee Rd.

A two million gallon ground level reservoir will be located on the site of the old well and two reservoirs. One of the deep wells will be located southeast of Dundee Rd. and Illinois St.

The village will be responsible for the cost of the project.

## Scouts, Leaders Trace Alaska Gold Rush Area

BY RICHARD CRABB

Five Arlington Heights Ranger Scouts and their leaders arrived yesterday at Lake Bennett in the gold rush area of Alaska after crossing the Chilkoot Trail, the gold rush route made famous by the American Novelist, Jack London.

The Arlington Heights scouts are the first to have made the trip since 1900.

Miss Sally Luetich and Len Freiberger, two college students, working in recreation, are participating in the Arlington Heights Park District this summer to complete course work toward a bachelors degree and to supervise summer activities of the district.

## New Hospital Planned for Area North of Village

A new hospital may be approved by the state to serve the unincorporated areas northwest of Arlington Heights and Mount Prospect.

A 210-bed medical center near Cary to serve the area between Libertyville, McHenry, Woodstock and Arlington Heights.

A hearing was held last April on the report, but action was deferred by the board because there was not enough state funds available.

# Ask Surplus Township Funds for Center

BY JENNIFER JOYCE

A bill to permit distribution of surplus township funds to the Northwest Opportunity Center, a Chicago-based organization that provides training and employment opportunities for the handicapped, was introduced Monday by Rep. James G. Thompson (D-Arlington Heights).

The measure is designed to allow the center, which was out of funds for some time, to receive federal funds, on July 1, to be used to provide training and employment opportunities for the handicapped. The bill also provides for the distribution of surplus township funds to the center for study, people.

Every year, according to Mrs. Chapman, each township collects approximately \$400,000 in taxes of which about \$300,000 remains after expenses.

An existing law permits the township to distribute the surplus funds to the school districts, senior citizens organizations and mental health agencies.

The bill would allow the township to distribute the surplus funds to the school districts, senior citizens organizations and mental health agencies.

prevent passage of the bill during this session, according to Mrs. Chapman.

"I'll continue to move the bill as far as I can. You don't know what's going to happen," she said.

If the bill fails this session, it will be scheduled for the January session.

Mrs. Chapman said that passage of the bill in January will enable the center to receive the distribution of funds in April.

can spend money that will help people to better themselves," Mrs. Chapman said.

The center, located in the Rolling Meadows Coach Line Shopping Center, has been open since August 1974.

Services include vocational training, job placement, and counseling.

classes, legal counseling, clothing and medical aid.

Federal funds, the only source of support, were cut off July 1. Since then, local organizations and churches have raised funds to keep the center in operation.

Mrs. Chapman said that, in addition to the share from local groups, the center would benefit from a federal grant.

The bill would allow the township to distribute the surplus funds to the school districts, senior citizens organizations and mental health agencies.

Wednesday, July 17, 1980 THE DAY Page 3

# Two Firms to Share Village Court Cases

The special legal counsel for the village will be split between two law firms.

The village board divided its legal affairs between the two law firms last night after Jack Siegel, formerly of Rome, Hardin, O'Keefe, Babcock, McDugall and Parsons, left the firm to open his own practice.

Siegel was a prominent figure in the village's legal matters, and the law firm has been employed by the village attorney.

for years.

Village Attorney John Zimmerman recommended splitting the court cases between Siegel and the Rome, Hardin firm depending upon how much Siegel is involved in a case.

Of the nine pending court cases, Siegel will get three, Rome, Hardin will get five and one will be handled by the village attorney.

# Harper College Budget to Climb By 70 Per Cent

BY F. C. BAUTKE

Harper College's \$3.8 million 1980-81 budget will be up 70 per cent over last year's.

The figure is 70 per cent more than that of last year, because it is expected to be

Crosby

Quits Ill. Racing Post

Francis Crosby of Arlington Heights, chairman of the Illinois Racing Board for five years, will resign Aug. 3.

His resignation has been accepted by Gov. James Thompson. Crosby, who is expected to leave the board before the end of the year.

The Illinois Racing Board allocates funds for racing to Illinois tracks, including Arlington Park. The board generally regulates the activities of the Illinois race tracks both for thoroughbred and harness racing.

Crosby said he is retiring from the racing board for personal reasons.

# Harper College OKs New Staff Members

Harper College board members approved 1980-81 staff appointments last week in the divisions of engineering, library and science.

Joseph Yohanan, 39, hired as associate professor and coordinator of architectural technology, will teach in Harper's engineering division.

Yohanan was graduated from Illinois Institute of Technology, Chicago. He previously worked as senior designer and job captain at Baltimore Design & Merrill, architect, Chicago.

Francis L. Donadio, 32, will be assistant librarian and instructor in the library division. She holds a master's degree from Rosary College and an undergraduate degree from the University of Minnesota.

Miss Marilyn Shaver, 31, will teach nursing education in the division of science and mathematics.

The board's acceptance of the new staff members.

# Which Of Our 4700 Stores Get The Best Beef?

Believe it or not, there are some people who think the quality of our beef varies from store-to-store. It's not true!

Every one of our Meat Departments offers the same high-quality beef, the only quality we sell... "SUPER-RIGHT" Quality. Our quality specifications for "SUPER-RIGHT" Beef are so high that some beef graded "Choice" just isn't good enough to be labeled "SUPER-RIGHT."

This one "high quality" policy for all stores applies to all the meats we sell.

It is true, that where customer demand calls for it, you will find thicker steaks, double lamb chops, etc., but they are all cut from the same quality meat that is available in every A&P Meat Department.

After all, to satisfy customer demand is just plain good business.

One other thing we want you to know.

No matter where you live, if you want that thick steak, double lamb chop or any cut you don't see in the case, just ask for it.

WE CARE about, and want to satisfy, every customer... and we mean every customer.

# Towels for Interior Decorating

Day at HOME

Wednesday, July 17, 1968

Page 7

BY MARLYN HELLERS  
Woman's Editor

The towel has come off of the towel rack and is no longer only used to wipe dirty hands. It has become a material for interior decorating.

Springmaid has come up with the idea of using towels as seat covers for canvas covered beach and new covers. Director's chairs are the easiest to work with and one large bath towel will do the trick.

You can either use the old cover as a pattern or you can save the new towel right onto the old cover.

TO COVER SEAT: mark old cover along sides where inside edge of frame meets fabric. Remove cover. Cut towel 1-inch wider (side to side) and 1 1/2 inches deeper (front to back) than the cover, taking side measurements from marked lines.

Place towel section with right side facing underside of seat. Fold side edges of towel under 1/2 inch.

With folded side edges against side marking on old cover extend marking under side of seat. Turn towel place top edge of towel along side marking on old cover, with right side of towel facing underside of seat. Turn towel under edge of towel to bottom edge of old cover.

Stretch through open sides to turn seat section right side out. Topstitch side edges in position on back.

Place, working close to folded edge and placing fold exactly along marked lines.

TO MAKE BACK COVER: Both sides of the towel will be covered with towel material. To make back section, simply cut following same depth as the old back cover, and to the measurement between the lines of stitching at the side of the old cover.

Stitch along top and bottom edges to join the two pieces, giving 1/4-inch seam allowance.

Position front section of towel, and cut 3 inches deeper 1/4 inch each edge than the old cover. Cut side measurement long enough to go around old cover to meet new towel section on back.

With right side of front section facing wrong (or back) side of back section, stitch top edges together with 3/4-inch seam allowance, starting and ending together with 1/4-inch seam allowance, making and ending stitching at vertical midline line of old cover.

Turn under seam allowance and topstitch in position or finish with a close zigzag stitch.

THIS WILL give you an unstitched section at each end. At each end of stitching line, clip towel section 1-1/2 inches down. Stitch across bottom edge and clip in same way. Turn under 1/4-inch top and bottom seam allowance of side sections. Wrap side sections to back, to cover raw edge of old covering.

Turn under seam allowance and topstitch in position or finish with a close zigzag stitch.

A Japanese patterned towel by Springmaid is used as the cover for this director's chair.

## A Few Tips for Family Living

BY BETTY KLAERNET

Almost, like humans, can suffer from too much heat. Spinal cord should be taken

### Engaged

of them during summer's "dog days."

For example, according to an article by Elizabeth Randolph in the August Family Circle magazine, neither dog nor can should be allowed on the hot streets, except early in the morning and late at night.

Lots of cool water should always be available, and if an animal refuses to eat, he should not be urged.

And, again, as with humans, these rules are especially valid for very young, very old, or very fat animals.

SOME OTHER pointers for summer pet care:

If your pet becomes weak, falls over or loses consciousness, he may be in a very serious condition.

Can often choose to sleep in a hot or stuffy place, such as an attic or closet. During very hot weather, don't let them do this, for as well as dogs suffer from heat prostration.

Animals and smaller animals also should be protected against extreme heat. Their living quarters should be kept scrupulously clean and fresh.

Your Horoscope

**For this day**  
**CANCER** (June 22-July 23) - A day which holds much promise for the Cancer who takes advantage of a new and different chance for success.  
**LEO** (July 24-Aug. 23) - Overdue correspondence should be attended to without further delay. An opportunity for a better future lies in a letter.  
**VIRGO** (Aug. 24-Sept. 23) - The higher up you go to find the solution to your problem, the more likely you are to find one to your liking.  
**LIBRA** (Sept. 23-Oct. 23) - An exceptional day for the Libra who accepts new faces and new places with no alarm. A day with a difference.  
**SCORPIO** (Oct. 24-Nov. 23) - Take time to relax during afternoon hours. Morning may be empty as business matters call for all you have to give in them.  
**SAGITTARIUS** (Nov. 23-Dec. 23) - Don't be persuaded into giving advice where you have no knowledge of the subject at hand. Keep your own counsel.  
**CAPRICORN** (Dec. 23-Jan. 20) - Don't take today's setbacks as any indication of your future. A day of ill winds that are bound to blow over.  
**AQUARIUS** (Jan. 21-Feb. 19) - The best defense is not to be an offense - but the wise Aquarius will hold his peace nonetheless as the day progresses.  
**PISCES** (Feb. 20-March 21) - Leaks which have long been pending should be brought to conclusion one way or the other at this time. Clean the decks.  
**ARIES** (March 22-April 20) - Friends may offer advice in all good conscience, but if you are wise you will listen only to the still small voice within you.  
**Taurus** (April 21-May 21) - Don't believe everything you hear about business matters. There are those who would try to defraud you through clever flattery.  
**GEMINI** (May 22-June 21) - Though you may be glibly flattered by others, refuse to dress up your pretensions as you try to understand present matters.

Left -- Demonstrating stretching exercises for the inner-city children are Lita Dan, left, and Lene Moller, both of the Helsingborg school in Denmark.

Inner-city youngsters imitate their Danish instructors in warming-up exercises.

## 4 Danish Girls Teach Camp Reinberg Children

BY LINDA GAMMILL  
Four young Danish girls and their gymnastics instructor, Miss Inga Thomsen, from the Helsingborg school in Denmark, have come to Camp Reinberg in Palatine to teach gymnastic exercises to youngsters from the "inner-city."

The girls are part of a larger group that joins different countries, performing gymnastic feats for audiences, mostly at YMCA's. But there are no performances at Camp Reinberg, which is located across the road from the Deer Grove Forest Preserve. The Danish girls are helping to add general handling and gymnastic skills to the vocabulary of the children of Chicago that are attending the two-week camping sessions.

One of the Danish girls,

Lotta Moller, said that most of the children had never attempted such things as somersaults and handstands, but they liked to do them and were getting to be good at them.

THE DANISH GROUP, consisting of Miss Moller, Lita Dan, Birthe Wulff and Susanne Hjalund, traveled all over Europe, including Germany, Holland, London and France last year, performing at YMCA's there.

They were brought to the Chicago area this year by Peter Sorenson, director of the Chicagoan YMCA's.

The four girls and Miss Thomsen arrived Friday afternoon and will leave Camp Reinberg Wednesday to perform in Oak Park.

Miss Moller said that their teaching program at Camp Reinberg consists of about two hours of gymnastic exercises for each group of children that they teach.

Miss Thomsen added that they took the children from one cabin, usually about seven or eight at a time, for each lesson, working in small groups.

THE HELLINGBERG school is a sort of training ground for future YMCA and YMCA leaders and was started in 1938 for boys and girls between the ages of 14 and 18.

It offers a regular curriculum of academic studies. One semester of the Helsingborg school corresponds to a full school year at other schools in Denmark.

**Boy's Football**  
Registration for the Arlington Heights Boys Football program will be held Saturday, July 20 from 9 a.m. to 1 p.m. at the Recreation Park fields.

...BEDLAM...

In addition to academic work, the school was founded with the idea that its students would receive special physical and leadership training and learn to teach each other while learning themselves.

At present there are 50 boys and 50 girls enrolled in the school.

The Minor B division Braves rolled in their fifteenth straight win of the season Tuesday night, scoring seven runs in the first inning to dump the Cubs 7-0.

The Braves had been only to win their final game on Saturday to finish the season with a perfect 16-0 season.

It was widely believed the Braves of the Day if scheduling had permitted a Mount Prospect team to be chosen, Larry Engel would have been the live front co-star.

The Cubs' right-handed pitcher, who had a perfect 16-0 season, lost to the Braves.

The Braves' seven-run outburst in the first frame came largely as a result of a streak of wildness on the part of Cub starter Jamie Reardon.

The Cub hurler walked eight men in the inning to force in five runs for the league leaders.

The other two tallies came when Rusty Batts cracked a line single up the middle with teammates Chris Grabowski and Bill Wheeler.

**PH Braves End Season; 12-1**

The Braves of the Major division ended the season with a 12-1 upset Tuesday night by dumping the Sox, 12-5, in Prospect Heights baseball section.

After scoring seven runs in the first inning, the Braves got a verbal support from their coach Bill Griffith in the losing. The Brave backstop walked and scored a run in the first frame as the Braves extended their winning streak to 15.

## ARLINGTON MARKET'S FISHING DERBY

3 BIG DAYS--THURSDAY, FRIDAY, SATURDAY--JULY 16, 19, & 20

Let's go fishin'—and catch live trout! Whether you're 9 or 90 you will thrill to the opportunity to feel that exciting tug at the end of a line. Once more Arlington Market is bringing you the opportunity to go fishing for rainbow trout, and it's all FREE. This year's "fishing derby" will be held Thursday, Friday and Saturday, July 18, 19, 20. Men, women, and children of all ages (children must be accompanied by an adult) will have 10 minutes to fish and can keep all they catch. Everything you need to fish with will be supplied on the tank. In addition to the free fishing you also have a chance to win a Zebco balanced tackle combination reel, rod and line.

10 to be given free to 10 lucky anglers!

FISHING HOURS:

Thur. & Fri. 12:30 to 8:30, Sat. 10 to 6

## SWINGING SETS ... fashion's newest look

**FRANK Jewellers**

Randhurst Shopping Center  
Mt. Prospect, Ill.

129 Broadway  
Madison Park • P 5-7900

1272 Western Park  
Madison Park • P 4-6000

# In the summertime, the action is outdoors. For instance ...

...A Palatine girl who is a student at the University of Denver has found an unusual summer job: teaching horseback riding ...

SUE Finner, 18, 147 N. Elmwood, is working this summer six days a week at Pallington Stables, teaching Western and English-style riding and jumping. An experienced horsewoman, she has been riding since she was three years old, and has been showing and jumping since she was 18. Here she shows Robert Langford of Park Ridge how to "mount" a horse. Photo by Joe Schwartz.

...Youngsters show off at the gymnasium ...

"DOE, A DEER..." is sung by members of the day bus club from Ivy Hill and Mac Arthur Junior High School parks last week. The program ended ...

the first session of summer activities and classes sponsored by the Arlington Heights Park District.

... Late afternoon girls' 12 inch pickup baseball game at Recreation Park can be a ball ...

FIELD student instructor, Sally Looch, 21, 209 S. Ping, shows the team how it's done. Miss Looch attends the University of Illinois.

MELISSA Opde, 14, 636 N. Dunton obviously has no intention of missing out and uses all her strength to swing at that ball.

A MITE with the mit, pitcher Marwan Colman, 9, 1411 W. Chardon leads game and over to the game.

EASY does it. It pays to be careful when climbing aboard.

STUDENTS coming in on the home stretch are, from left, John Hough, 12, Palatine; Fay McNeil, 14, Barrington; and Miss Langford.

...And 'horsey' fun exerted fascination even for younger riders ...

CHILDREN at Little City were taken for rides on the high pulled by the Volunteer Team, the only Washington tradition in America. The horses were

at the Palatine Community for children to kick off Little City's golf tournament, July 22 at Hillcrest Country Club, Long Grove.

FIRST base get, Pat Sutton, 13, 1530 E. Roosevelt, Arlington Heights almost makes a catch.

ONCE UP to bat, Miss Sutton relies on catcher and playground supervisor, Peggy Waler, 18, 209 S. Burton.

Sprinklers create a symmetrical pattern at the Arlington Park Race Track last night. But Arlington Heights residents have been told to refrain from watering their lawns during the warm weather to maintain adequate pressure in the village water mains.

## Lawn Sprinklers Idled

# Ban to Remain During Heat Wave

Residents of Arlington Heights will not be allowed to use their lawn until the "water-ban," according to Village Manager L. A. Hanson.

Hanson said he had ordered the ban on sprinkling yesterday because pressure in water mains was dropping to the point where fire engines could not get enough water from

one of a fire engine.

Yesterday policemen and firemen were ordered to patrol streets of the village to inform residents of the restriction.

Last night the village pumped 1½ million gallons of water from Mount Prospect when a hot spell during July caused reservoirs to drop to one million gallons.

AT THAT time, two of the

village's eight wells were nearly exhausted. Water conservation during the summer can reach 9½ million gallons during peak hours.

Mount Prospect, which has 10 wells, experienced no shortage, and Mayor Daniel Conner said his town's pumping rate had been averaging about six million gallons daily this year.

Congress said Mount Prospect has a capacity of nine million gallons. Two million gallons are held in reserve in reservoirs.

The construction of two new wells, which were authorized by the \$1.5 million revenue bond issue authorized by the Arlington Heights village board Monday, will supply the village with an additional 24,000 gallons per minute.

Hanson reminded residents of the sprinkling ordinance which allows sprinkling of lawns of homes that have even numbers on even dates and odd-numbered houses on odd dates.

He warned residents yesterday when they were told sprinkling laws would be in effect.

He said a citation would be issued if a resident was found to be watering a lawn during a sprinkling ordinance.

A fine of \$25 will be imposed for violation of the village ordinance.

Police said the residents were "very co-operative" about adhering to the sprinkling regulations and many residents told them they were not aware of the ban.

## County Supt. Office Enters Nike School Border Hassle

BY JAN BONE

"Surprised" that neither William Rolling Meadows District 15 nor Elk Grove District 59 has yet school for a setting who is in order on Navy children, the Cook County Superintendent of Schools' office yesterday entered the boundary discussion between the districts.

Wendell E. Jones, assistant superintendent of schools of Cook County, plans to take an interest in helping the two school systems solve their boundary problems and ascertain their

quintessence for a school and park.

Jones, a Palatine resident, carries county responsibilities for Division 11—which includes the townships of Barrington, Palatine, Wheeling, Elk Grove, Schaumburg and Meigs.

"Our county office will give its full support to assist any school district that is involved in a boundary change," Jones said.

"We will sit down with both sides and discuss all possibilities. We can use the full staff of our office to help reach

conclusion which are in the best interests of children."

JONES SAID that, in the 11 months since Navy housing plan for the site first was discussed, no one has officially called the county school superintendent's office to discuss the education of the Navy children.

"We've kept aware of the entire situation," Jones said, "and perhaps this is the time for us to become active."

The school boards of Districts 15 and 59 met in joint

session Monday, but came up with no solution.

Sup. E. S. Cantor of Palatine District 15 is scheduled to meet Navy officials tomorrow morning and to ask them to change the location of the proposed school site.

The Nike base problem involves both districts because the children will move onto the base will be residents of District 15, which is legally responsible for their education.

However, the only land the Navy has offered to donate for the school site lies across the boundary, in District 59.

To help get that situation solved, the Village of Arlington Heights has applied for the land. The village would hold it until the school can work out more definite plans.

The Arlington Heights Park District became involved because the school districts feel that the three-acre Navy site is too small. A combination of six or seven acres for both park and school purposes would be "essential," according to both school superintendents.

MILLER builders now own the land next to the proposed Navy school site. They would be willing to sell the land to the school district, at \$10,000 an acre, or to trade it for another site the park district owns.

However, the Park District would not buy.

A vote in the Illinois State House of Representatives today may be the first step in granting additional state aid for Arlington Heights District 25.

State Rep. Eugene Chapman (D-Arlington Heights) introduced a bill Monday to change the requirement for school enrollment growth from 3 per cent to 2 per cent a year.

Under the present law, a school district has to show a 3 per cent increase or more in attendance to be eligible for state aid. If the growth in the district is slightly less than 3 per cent, the claim for additional funds, based on average daily attendance, may not be made.

Mrs. Chapman said the bill would make the motion for the school without reference to a committee.

"It received quite a favorable vote Monday," she said.

## A Day Analysis

# 'Why' of Nike Base Schooling Fight Told

BY JAN BONE

Why is the Nike base problem so important to taxpayers? That is the question of who will educate the Navy children who live in Palatine-Rolling Meadows District 15. And where the children live, they should go to school.

What's all the fuss about? The solution to the Nike problem will affect the lives of thousands of families living in Palatine and Rolling Meadows. It also will affect the tax bills of District 59 residents in Arlington Heights, Des Plaines, and Elk Grove Village.

If it affects, in any way, the lives of more than 20,000 school children.

If District 15 has to find

classrooms for all the Navy children from 150 apartments, it means that children from the site will have to be bused to other schools in Palatine and Rolling Meadows until they have their own building.

It means that another referendum to increase taxes is almost a certainty. It means that the district is "out" of bonding power for construction. That money may have to be borrowed from the state to build the school.

District 59, which plans to build an addition to Juliette Lewis High School, already has hired an architect to design it. If the new classroom is to be ready in September, 1969, foundations must go in this fall.

If District 59 does not take the Navy children, the addition to Lewis can be made in one year, but the projected enrollment from the Barry Ridge area will be 1,000. If the boundary is switched so that District 59 moves to New Wilks or Old Wilks Rd., and picks up the Nike base youngsters, then it must, somehow, build another school in which to put them.

District 59 is not, in just about "out" of bonding power

for construction. It has already set a Sept. 21 date for a referendum to increase taxes to pay for a capital improvement fund that will do with the Nike-Navy situation.

But if voters approve it, they may not want to say yes again just to have the school for the school to house the Navy youngsters.

Either way, each school district is running out of time. If they are to have intelligently, they must know what will happen.

Schools in District 15 are Juliette Lewis, Dempster-Holmes, Front, Forest View and Fox. District 59 has Devonshire, Bristle, Broadview, and High Ridge. Other schools in Rolling Meadows, Des Plaines, and Elk Grove are: Clark, Grant, and Tom Lively Junior High.

Gripe Of The Day

When I'm in a hurry and find a parking space, my driveway is not get out, Navy Means.

Meetings Tonight

The Rolling Meadows Park District Board of Commissioners at 2280 Central at 8 p.m.

"THE BILL required 59 votes to pass and get 120 votes for the second reading," she said.

Mrs. Chapman said Tuesday that the bill advanced to the second reading and would have a chance to become law.

State Aid to Village Schools May Rest on Vote Today

up for a vote. The issue is an emergency bill and required a two-thirds vote of the house of representatives to advance for a second reading.

"I am optimistic it will receive the 116 votes necessary for passage," Mrs. Chapman said Tuesday.

She said the bill may be acted upon next week in the Senate if it passes in the House.

Mrs. Chapman and Ar-

lington Heights Republican Representative Bill Schickman were the major proponents of the bill.

District 25 would be the only school district that would benefit from passage of the bill, according to Mrs. Chapman. The increased population growth, and its effect on the school system of Arlington Heights, is the reason the local legislators introduced the bill.

The Heart Fund Exceeds Goal

The Heart Fund drive in North Cook County exceeded its 1968 goal according to Mrs. Thomas L. Gilbert, North Cook County Chairman.

Among \$10,324 was raised to the total North Cook County goal of \$127,200.

Arlington Heights raised \$2,197; Elk Grove raised \$2,341; Rolling Meadows, \$7,381; Elk Village, \$1,448; and Wheeling, \$714.

The Bank of Arlington Heights at Arlington Market is undergoing a facelift and expansion program. Yesterday workers laid

stained modern columns at the front of the building. Photo by Joe Edwards.

# Keep Your Cool: Prepare Meal Early in Day

BY MARILYN HELPERS  
Miami's Editor

Keeping your cool and cooking on these morning hot days isn't an easy trick. No one wants to spend their summer days in a hot kitchen, so planning and preparing your meal early in the day is essential.

Before the heat has reached its peak, early in the morning, is the time to do your advance preparation. The barbecue grill is a handy appliance for cooking or broiling your main dish.

**FOR A SUMMER SUPPER,** try broiling a small canned ham, either on the grill or in some of the new small electric cookers or roasters. Put a few cloves on top, sprinkle it with brown sugar and baste it with orange juice or pineapple juice until it is heated through, according to the directions on the can. Try in the morning both the new and the new potatoes now on the market and make a special potato salad containing sliced celery, chopped scallions and mayonnaise. Call some tomatoes for filling at dinner time.

For dinner make a chilled green bean casserole and add it with Blueberry Cream Cracker and fill it with Blueberry Cream filling for a Blueberry Cream Pie. Only one-quarter

of the berries are cooked, then they last only the other three-quarters of the berries are used raw. A much of grained orange peel adds unusual flavor. Just before serving garnish liberally with slightly sweetened whipped cream.

Cooking time is a minimum with this method, but your family will be sure to appreciate hot and cold dishes for a hot summer evening supper.

## NEW POTATO SALAD

3 pounds new potatoes  
1 clove garlic, split  
1 cup sherry alcohol celery  
1 cup chopped scallions  
2 cups mayonnaise  
1/2 cup onion (about 1 1/2 cup)  
1 cup mayonnaise or 1/2 cup mayonnaise and 1/2 cup vinegar

Wash potatoes. Cook covered in a small amount of boiling salted water until just tender, but, if necessary. While potatoes are cooking, wash scallions, salt and pepper in wooden bowl. Let stand at room temperature.

Put potatoes as soon as they are hand-

led. Cut in half lengthwise, then sprinkle with 1/4 inch cold oil around bowl. Sprinkle with lemon juice. Turn lightly and add salt. About 1 hour before serving, transfer potatoes to wooden bowl. Spoon mayonnaise evenly over potatoes. Turn lightly. If desired, garnish with hard-boiled eggs. Sift to serving.

## BLUEBERRY CREAM PIE

Pick over and wash 1 quart blueberries. Drain make a smooth paste of the following ingredients:

1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water  
1/4 cup cold water

When boiling, add the four parts and stir until it thickens. Remove from stove and cool. When cool, add the remaining 3 cups of reserved blueberries and put into 10-inch baked pie shell. Refrigerate. When cold, garnish with sweetened whipped cream. (Note: pie shell may be Graham cracker crust or your favorite pastry recipe.)

Use plentiful new potatoes for this Potato Salad, especially good for a summer supper.

# Tasty Recipes for Green Beans

The green beans have arrived. Tender fresh green beans are now available, both in grocery stores and local market stands. After you have had your fill of fresh green beans with butter, try one of these tasty recipes for beans.

## Hubbard Earns Athletic Honor

Bruce Hubbard of Arlington Heights has been named to the Athletic Honor Roll at Northwestern University as a member of the varsity swim team. Hubbard, a 1966 graduate of Arlington High School, received his varsity letter in football and had an academic average above B-minus to earn the honor. The Northwestern junior, who was named to the West Suburban All-Conference swim at Arlington, is expected to be on the first team for the football season this fall.

## Day SPORTS

Eight-year-old Jeff Bosman of Arlington led his team as head coach Doug Rice explains to her why her team was disappointed from the girls' eight and under 100 yard free style relay event. According to coach Harry Tennant, his team three first places.

Left: Fred Schmidt makes his start for the boys fifteen and over 100-yard free style event against Niles swim team.

YOUR PASTRY HOSTESS AT  
948 Grove Mall, Elk Grove

Pastry shopping at Jewel is like visiting a neighborhood bake shop - complete with a friendly Pastry Hostess to help you make your choice. Carefully trained to serve you, your Jewel Pastry Hostess knows it's her job to give you personal assistance as well as see to it that the shop's pastry selection is fresh and full.

Look around your Jewel next time you shop and just notice how many people there are - all busy doing things to make your shopping trip a pleasant experience. Throughout the store you see folks filling shelves, taking inventory, answering questions. And up front there are more people checkers, parcelers and carry-out boys - making that everyone who shops at Jewel is able to enjoy their shopping trip as quickly and efficiently as possible. Perhaps that's one of the differences you enjoy at Jewel. There are always so many folks help you!

Even more important to you, of course, is the fact that the people who serve you at Jewel are such nice, friendly, helpful people who sincerely enjoy serving you. That's the kind of people who look for and find to serve you at your store. It gets busy at your store. Often the folks who are rushed. But, no matter how busy Jewel is, Jewel people are among the nicest people you'll meet anywhere. And that, we think you'll agree, is the biggest difference in shopping enjoyment that you can always expect at Jewel!

**Meet Fred Toms**  
**YOUR PRODUCE MANAGER AT**  
**122 N. Vail, Arlington Hts.**  
Before you ever get to the store, your Produce Man is hard at work washing, trimming and displaying fresh fruits and vegetables. When you come in, of course, he's ready to give you his attention - to assist you in choosing as well as weighing and wrapping your selection!

**Meet Ed Manade**  
**YOUR MARKET MANAGER AT**  
**948 Grove Mall, Elk Grove**  
One reason why you can always depend on finding a wide selection of fine meats at Jewel is the fact that your Market Man spends time "behind the scenes" preparing these cuts for you. But he particularly enjoys his moments at the counter - when he can serve you personally, answer your questions, prepare special cuts to your order!

The poles, the cars and the trains are all that has changed since 1880, when the picture at left was taken. The picture at right shows the "push-pull" method of running passenger trains back and forth without tending them around. The poles on the Chicago and North Western R.R., unlike other American railroads, run on the left side, a tradition started in the 19th century, when British financial factors contributed to the railroad.

# Railroad, Suburban Histories Coincide

**BY TED LACY**  
As the railroad came, so grew the suburbs. The history of the suburbs is the history of the railroad.

**CHECK-CREDIT BANKING ACCOUNTS (NO MINIMUM BALANCE)**

**1ST ARLINGTON NATIONAL BANK**

DOWNTOWN PLAZA  
ARLINGTON HEIGHTS  
MEMBER F.D.I.C.

Publicity Manager Frank Koval of the Chicago and North Western R.R. said.

"In the east, railroads were built to connect existing cities."

But in the Midwest they extended out into the prairie, opening up new areas for population and development. When the Chicago and North Western R.R. first came which in 1848 began its westward trek toward Rockford, it got to be for Prosper.

That was the first railroad in the Midwest, Koval said. It's also the only true relic of Chicago, as its tracks

through this way in 1954, Arlington Heights was not known by that name; it was just a crossroads, and Mount Prospect didn't even exist. But since that time when the first farmers, many of whom were immigrants, had struck across the prairie and made the way for the great black steam locomotives that broke the rural quiet with explosive coughing, Mount Prospect and Arlington Heights have become the largest of the 66 suburban stations belonging to the railroad.

Last year, the railroad transported some 2,300 passengers from Arlington Heights to Chicago and back every day, Koval said.

The Chicago and North Western R.R. grew to its present size by merging and consolidating 160 individual railroad companies.

The first West of the Galena and Chicago Union R.R. began in the city, from the depot at Kinney and Canal, and extended out to what are now suburbs.

The other railroads now associated with Chicago all began outside the city and extended into it, Koval said.

The man who got the Galena & Chicago Union R.R. out of the planning stage into actuality was its first President, William B. Ogden.

"He was quite a character," Koval said. "After Ogden served his term, began in 1813, as Chicago's first mayor, he became interested in real estate and railroads."

Later, after he served his term as president of the Galena & Chicago Union, from 1846 to 1851, he got interested in another railroad, the Chicago, St. Paul & Fox Lake R.R., which was built between Chicago and Cary in 1854 and extended from Cary to Janesville, Wis., in 1855.

The line never broke four years later, so when it was put up for public auction, Ogden and several other people bought it.

They changed the name to the Chicago and North Western.

It is this part of the present system that still runs through Des Plaines, Mount Prospect and Arlington Heights, out to Harwood.

Later, in 1864, the old Galena & Chicago Union R.R. and the Chicago and North Western R.R. consolidated. The move was facilitated by Ogden's knowledge of both.

The Galena was bigger, but the name of the Chicago and North Western was kept, because it was more descriptive of the area served.

But the vacant Wells St. station wasn't torn down until later. In the 1920's, the air rights were sold to the people who eventually built the Merchandise Mart on the same site.

The few trains that ran carried everything—mail, freight, baggage—as well as people.

The company owned in all central depots at Kinney and Canal and built a larger one on Wells, which opened in 1881.

This building was abandoned in 1911, when the present terminal on Madison was completed.

But the vacant Wells St. station wasn't torn down until later. In the 1920's, the air rights were sold to the people who eventually built the Merchandise Mart on the same site.

# Exchange Students Here

Ten Japanese college students and their counselor will be the guests in the homes of Arlington Heights, Mount Prospect and Rolling Meadows families for four weeks this summer.

The students are members of a program of the Peace Corps in language programs and training a study year abroad for several colleges," Mrs. Beckwith said.

Arlington Heights residents who will host a Japanese student for the month are: Mr. and Mrs. Charles Baker, 19 N. First; Mr. and Mrs. Robert Brown, 1011 E. 63rd; Mr. and Mrs. Robert Condon, 213 S. Bradford; Mr. and Mrs. Robert Condon, 213 S. Bradford; Mr. and Mrs. Robert Condon, 213 S. Bradford; Mr. and Mrs. Robert Condon, 213 S. Bradford.

Other host families are: Mr. and Mrs. Beckwith and Mr. and Mrs. Frank Henderson, 413 S. Na Wa Ta, both of Mount Prospect; and Mr. and Mrs. Thomas Condon, 3700 Bob White Ln., Rolling Meadows.

The students will arrive in Chicago July 25 and will remain in the suburbs through August.

They will be coming from the University of Pittsburgh, where they had a two-week orientation program, and from some of New York and Washington.

To San Francisco and then will return home to Japan. But the host stay in the suburbs is the heart of the experiment program," said Mrs. Beckwith.

"AFTER THEY leave in August, they will travel west

## Rep. Chapman Adds Push for Releasing Flood Control Cash

By LARRY WILKS

The proposed Salt and the Creek flood control program have bipartisan support.

Rep. Chapman (D-Arlington Heights) also emphasized yesterday that the program is not a political project.

The only woman and the only Japanese representing the 13th district, which includes both Mount Prospect and Arlington Heights, Mrs. Chapman reported the official has been asked her support for the two projects has been held up by

## Newsboy Uncovers Burglary

An alert newsboy boy found Arlington Heights police to the scene of a burglary early yesterday morning.

Newsman Robert Gerth said the youth stopped him and told him a window was broken at Henderson's Pharmacy, 530 W. Northwest Hwy. Gerth said the front window was smashed and the cash register inside the store was broken.

About \$20 in cash was reported missing from the store.

Gerth said the bars were removed from the back door of the business and apparently the burglar entered from the back door to escape.

Policeman Gerth did not get the name of the newsboy who supplied the information.

State Police Not Soliciting Ticket Sales

Rep. William H. Morris of the Illinois State Police said he and several of his constituents had received calls from women and organizations offering if the Illinois Police were soliciting for the sale of tickets.

the governor - also a Democrat - while the bagging over how to resolve the state's financial crisis is going on.

Both GOP representatives here, Eugene Schickman (R-Mount Prospect) have thrown their support to the two projects, which are to improve storm drainage in the northwest suburbs.

Chapman along with Schickman co-sponsored the bill for Salt Creek.

Ragner was the sole sponsor of the Walker Creek improvement project.

Although both bills passed the General Assembly last year and were signed by the governor, Otto Kerner, Gov. Shapiro said he will not release funds for the work until the General Assembly solves an anticipated \$120 million deficit this fiscal year.

The governor previously transferring \$60 million from the motor fuel tax fund money on deposit for municipal street improvements, to ease the situation, but is meeting some resistance from GOP legislative leaders.

The Republicans are asking for legislative controls on the use of the funds.

Mrs. Chapman said that Republican mayors here are not being realistic about the release of the motor fuel tax funds.

Schickman earlier indicated that the mayors in the area are opposed to the state taking their money, since municipal improvements would be curtailed.

"THEY can't have their cake and eat it too," Mrs. Chapman said.

If the motor fuel taxes are not borrowed by the state, the financial crisis will not be solved and the Salt and Walker Creek projects will not be started, she said.

Asked when the situation might be solved and when the project could be started, Mrs. Chapman said: "It's up to the GOP. If the Republican dominated General Assembly doesn't like the proposal that the governor and the legislative leaders have worked out, they had better come up with something better."

The governor previously transferring \$60 million from the motor fuel tax fund money on deposit for municipal street improvements, to ease the situation, but is meeting some resistance from GOP legislative leaders.

The Republicans are asking for legislative controls on the use of the funds.

Mrs. Chapman said that Republican mayors here are not being realistic about the release of the motor fuel tax funds.

The governor previously transferring \$60 million from the motor fuel tax fund money on deposit for municipal street improvements, to ease the situation, but is meeting some resistance from GOP legislative leaders.

The Republicans are asking for legislative controls on the use of the funds.

Mrs. Chapman said that Republican mayors here are not being realistic about the release of the motor fuel tax funds.

Mrs. Chapman was optimistic, however, on the fate of the two creek projects, and said that she thought the pessimism expressed by the two GOP representatives might be unjustified.

Other host families are: Mr. and Mrs. Beckwith and Mr. and Mrs. Frank Henderson, 413 S. Na Wa Ta, both of Mount Prospect; and Mr. and Mrs. Thomas Condon, 3700 Bob White Ln., Rolling Meadows.

The students will arrive in Chicago July 25 and will remain in the suburbs through August.

They will be coming from the University of Pittsburgh, where they had a two-week orientation program, and from some of New York and Washington.

To San Francisco and then will return home to Japan. But the host stay in the suburbs is the heart of the experiment program," said Mrs. Beckwith.

"AFTER THEY leave in August, they will travel west

to San Francisco and then will return home to Japan. But the host stay in the suburbs is the heart of the experiment program," said Mrs. Beckwith.

There is something about Farmington that puts life into its proper perspective. A down-to-earthness and freedom that makes Farmington today. Here is simple, unadorned, peaceful country living complete with quiet ponds, winding lanes, woods and hills, and houses so perfectly conceived that they seem to grow out of the land. Farmington is not for every eye. But to those few who know the difference between a house and a home, we invite you to come home. To Farmington.

Homeowners are a minimum of one acre, priced from \$160,000 to \$225,000. By design, no two houses alike.

## South Church Youths go to Switzerland

Eight high school age young people from The South Church, Community Church of Rolling Meadows, will be attending the World Baptist Youth Conference in Bern, Switzerland July 23-27. Before and after the Conference, they will tour Europe. They are being accompanied by Paul Rawley, student at Northern Baptist Theological Seminary, and Pastor-in-training at The South Church, is their leader.

The eight young travelers are Douglas Hughes, Donald Gardner, Betty Lee, Dave Michaels, Jane and Dennis Street, and Patty and Mark Webb. Miss Bonnie Stevens accompanied the group as girl counselor.

Paul Rawley, student at Northern Baptist Theological Seminary, and Pastor-in-training at The South Church, is their leader.

They will fill the pulpits at the 9:30 and 11 a.m. services. July 28, James Oetzel, a ministerial student at the Lutheran School of Theology, will conduct the worship service and preach at both services.

Paul Rawley, youth leader and Pastor-in-training at the South Church, Mount Prospect, and Don Gardner, one of eight high school youth from the church attending the Baptist Youth Conference in Switzerland and touring Europe, sign to at TWA International ticket desk at O'Hare airport last Sunday before their plane took off.

The final week of registration is underway for vacation Bible school at St. Peter Lutheran Church, 111 W. Olive, Arlington Heights. Classes will begin Monday, July 22 and continue through Aug. 25 to 11:00 a.m. for boys and girls in the first two sessions, by the end of the week.

Material for the two-week program will be completed under the theme "The Will of God Means" which will be the theme for the week.

The Rev. Leonard Martini, minister of education at St. Peter Lutheran Church in Arlington Heights, watches two teenagers consult their vacation Bible school forms for vacation Bible school in the "Bible Church" in the foyer.

## Guest Preachers At Grace

Grace Evangelical Lutheran Church, Prospect Heights, will have guest preachers the next two Sundays, July 21 and 28.

July 21, Reverend David Lindberg, professor of Missions at the Lutheran School of Theology, Chicago, will fill the pulpits at the 9:30 and 11 a.m. services.

July 28, James Oetzel, a ministerial student at the Lutheran School of Theology, will conduct the worship service and preach at both services.

Arrangements for these guests have been made through Reverend Dr. Arthur C. Arnold, Dean of the Theological Seminary.

# Game of the Day

## Bucs Jolt Athletics, 2-1

BY LINDA GAMMILL

The only scoring for the Pirates came in the first inning, when a hit, Lindorff man Dave Koolger walked and made it to second as Mike Benardo grounded out to first baseman Mike Wojcik. Another walk gave the Pirates a 1-0 lead.

Richard Seifert, and Paul Krueger's free pass loaded the bases in the second frame, but the Athletics, who were favored to win the game, failed to score.

Barry, who had started the game at third base, gave up his first home run to the Athletics, but he hit two more.

**THE ATHLETICS** got runners on base in every inning except the fifth, but strikeouts were the bane of the Athletics' chances of scoring. Bob Schuchman got the only two base hits of the game, both singles, coming in the third and the fourth.

The Athletics loaded the bases in the second frame, but three strikeouts were recorded in the third and fourth frames. The Athletics failed to score in the third and fourth frames. The Athletics failed to score in the third and fourth frames.

# Prospect's Jim Carroll Earns 'Athlete of Week'

Jim Carroll, hard-hitting and hard-working catcher of the Prospect High School Summer League team, has earned the Day's Athlete of the Week Award.

Carroll has distinguished himself in the past week of action at the plate as he has turned to a double, two singles, and a home run, totaling seven decisive runs batted in Prospect's two games against Addison Trail and Fenelon.

Carroll drove three runs to put the Knights back into the game against Addison, and a line drive hit by Carroll nearly sent the tying run with an out down at the plate and Prospect led the game, 5-4.

Two nights later, against Fenelon, Carroll blasted off with a two-run double that would have been a grand slam, but fell just short of the fence for a grand slammer. In addition to his consistent hitting this year, both as a member of the Summer League team and the Prospect High School varsity, Carroll is a good catcher and not many batters have been stomped against him.

Ren Dole, who has been the main pitcher to throw to Carroll this summer, said that he is becoming a smarter catcher, and that he is doing a good job at moving the target around and keeping it low.

Carroll, who will be a senior next year at Prospect, played his first major league game in the final stages of the Mid-South Area Summer League season, after sharing the spot with another contender in the first few games. He also played for the Mount Prospect Mid-Town League team.

For the Prospect squad, Carroll hit a solid 340, and is currently maintaining a 210 average for the summer season against stiff pitching.

Carroll's record says quite a bit about his capabilities as a hitter. He has collected ten home runs, and has driven in 15 runs.

Carroll has smacked three doubles, three triples, and two homers in Summer League games. He has scored three runs, but that is due to a clerical error in the scoring of the game. He has also scored three runs in the game.

**Yanks Hold Lead**

The league-leading Yankees had little trouble with the Senators Tuesday night in a 19-0 rout, putting a 19-0 lead on the board, and Bill Womack caught a pair of doubles to lead the Yankees to the top.

BUGS BUNNY

Horoscope

FOR SATURDAY

CANCER (June 22 - July 23) - Take care in any way you may find yourself behaving in a way which you cannot abide in others. Give orders in a calm fashion.

LEO (July 24 - Aug. 23) - Independent thought and the action of Leo's mindlessness today. Don't over.

VIRGO (Aug. 24 - Sept. 23) - If you meet your fears with the determination to conquer them, all should go well. Opportunity lies behind a fortunate face.

LIBRA (Sept. 23 - Oct. 23) - The vice Libra will wait until he can speak calmly before voicing an opinion. Avoid any display of high emotion.

SCORPIO (Oct. 24 - Nov. 23) - A little metaphysical may could find you quickly and safely in the solution to present problems. Check your sources.

SAGITTARIUS (Nov. 23 - Dec. 23) - Make an effort to gain some realization of self as you go about Sunday routine with family and friends.

CAPRICORN (Dec. 23 - Jan. 20) - Seek out those whose values and views coincide for the most part with yours. You need to avoid friction as far as possible.

AQUARIUS (Jan. 21 - Feb. 19) - You can help others improve matters in your own community and gain much respect and admiration in the process. Don't be coy.

PISCES (Feb. 20 - March 21) - Take a stand against those who would take you in to taking any action against your own conscience. Courtesy can go too far.

ARIES (March 22 - April 20) - Any activities calculated to restore your energies should be entered into with a will. Do nothing that will cause fatigue.

TAURUS (April 21 - May 21) - If you're getting nowhere solving problems by employing "time-honored" methods, you might be wise to change your tactics.

GEMINI (May 22 - June 21) - A little activity goes a long way today. If you're wise, you'll seek less fun and more learning this Saturday.

# Tile Has Many Faces

THIS broken sidewalk is in front of the house at 704 W. Thomas in Arlington Heights. The damaged walk can be repaired under a cooperative sidewalk repair program in which the property owner pays 42 cents a square foot and the village pays 42 cents per square foot. The portion of the sidewalk next to the street corner has been repaired entirely at village expense.

Color and design never have played more important roles in construction than they do today.

And building products manufacturers have been keeping in step with the times by expanding the decorative diversity of their wares.

Ethiotic appeal, however, is not always in a building material it must have practicality and permanence as well, meet the demands of style-conscious but economy-minded builders and consumers.

One material that combines these virtues is ceramic tile. Available in more than 1,000 colors and color combinations, 500 designs and 100 shapes and sizes, tile requires no special cleaning or sealing and, once installed, is virtually indestructible.

Tile's new faces are showing up in new places, inside and outside residential, institutional and commercial buildings.

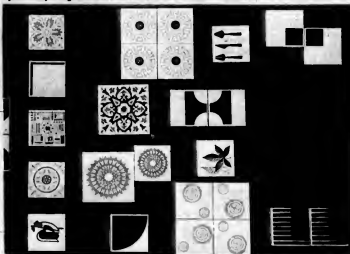

Innovations in tile-setting materials and methods have expanded the uses of tile and have made it easier, quicker and less expensive to get a better installation.

The Tile Council of America's Research Center at

Princeton, N. J. can be credited with many of these developments, perhaps the most spectacular of which was the development of epoxy mortar, the first tile-setting material made from a specifically designed for use

with ceramic tile. It has higher bond strength and produces generally better tile installations than traditional setting materials. It is estimated to have saved more than \$200 million in installation costs since its introduction 12 years ago.

Other developments include epoxy grouts and mortars which have changed many concepts and working procedures in the industry and have opened vast new markets.

A FEW OF CERAMIC tile's new faces. These are not custom-made pieces, but a sampling of the stock decorative lines of domestic ceramic tile manufacturers.

## Time To Repair Sidewalks

BY RICHARD CRABB

are sidewalks like the ones pictured in every village, and now is the time of year to get repairs made before the snow and ice of winter make the defective areas hazardous.

Sidewalks which are repaired by the property owner cost \$1.00 per square foot. Repairs of sidewalks next to street corners or across the street are repaired at village expense.

spent in replacing defective sidewalks is 82 cents per square foot.

Homeowners bear the entire cost of removing damaged sidewalks and replacing them when the sidewalk crosses the driveway. The cost for sidewalks crossing driveways amounts to \$1.00 per square foot.

On the other hand, the village stands the entire cost of repairing and replacing damaged sections of sidewalks at both street corners and across dedicated alleys.

On receiving a call from a homeowner wishing to have a sidewalk repaired, a representative of the village engineering department visits the property and makes an estimate of the cost to be met by the property owner and the village.

The estimate includes removal of broken sidewalk materials and a general cleanup. The cost does not include grass seeding or road replacement.

## Wooden Rule Best Near Machines

The best rule of all for use around a power tool is a wooden one. It is a good safety rule, too, since the worst that can happen to a wooden

rule is that it can be chewed up by a power tool or moving part. A metal one can damage the appliance seriously, and, can injure you or a bystander.

# Scale, Galls Hitting Maple Trees

Friday, July 19, 1958

THE DAY

Page 13

Maple trees in the Chicago area are being hit by two pests this time of the year - cottony maple scale (lower pest) and maple bladder gall (upper pest).

Cottony maple scale is a common and serious pest on soft maple and a variety of other trees, including such fruit trees as apple, pear, plum and peach. The infestation can be heavy enough to kill twig, branches, limbs and, occasionally, entire trees.

Secretion of honeydew in

great quantities by the insect drops on branches and foliage of infested trees, sidewalks and cars below, leaving a sticky film. A sooty mold that sometimes grows in the honeydew may cause branches and foliage to appear black.

The partly grown, brownish female scale winters on a twig or branch. She grows rapidly in the spring and lays hundreds of eggs, in a mass of tiny threads. Heavily infested branches appear to be decorated with popcorn.

In the Chicago area

cottony maple scale hatches in early July. The young scales migrate to the leaves, settle down and make food and life from the leaf tissue. Males and females mature in August, mate and the female crawls back to a twig for the winter.

BECAUSE this is a scale insect, it is protected from insects by the scale itself. Therefore, to achieve control use the insecticide malathion when the insect is in the crawling stage in early July. Two or three sprays in the

first two weeks of July should be applied. Spray thoroughly in the early morning or evening only. Malathion sprayed in the heat of the day will vaporize and be ineffective. A dormant oil spray in winter or very early spring is also effective.

Unusually green and radish-like growth (maple bladder gall) on the upper side of the leaves with maples are caused by small insects. The insect winter on the back of maple leaves and in the spring, migrate to the young leaves where they stimulate the

formation of galls in which the insect feeds. Usually these galls do not cause enough damage to large trees to justify spraying. Small trees, however, should be sprayed.

Malathion should be sprayed in the early spring after the buds are swollen, but before they unfold into new leaves.

**WHAT'S BEHIND THE SCENE?**  
Call Now 289-1900  
1001 N. LINCOLN RD.

## Hardboard Comes in 5 Surfaces

Plastic-finished hardboard, long popular for new homes as well as remodeling, now comes in five attractive new surfaces - warm chestnut, oak, travertine, mahogany and, these, prefabricated.

Chest, travertine, mahogany, oak, these with a texture that can be seen and felt have the same washable plastic finish long associated with this versatile paneling. This plastic-finished hardboard also comes in modern colors, high-gloss woodgrains and decorator patterns.

The permanent plastic surface of Marflex paneling resists hard wear, heat, moisture and stains. It is easily wiped clean with a damp or moist cloth. Also, periodic redecoration is eliminated.

Plastic-finished hardboard can be applied either by a professional applicator or by a experienced home handyman.

Now INCLUDED in the Marflex line of plastic-finished hardboard are four-foot wide panels in deluxe high gloss colors, woodgrain, decorator patterns, and safe luster designer hams, 16-inch by 8-foot woodgrain panels, 16-inch by 8-foot panels in eight colors and a gold leaf pattern; 16-inch square ceiling blocks in oyster and polar white, as well as a gold nugget pattern; versatile Peg-Board in solid colors and woodgrain; a line of 5-foot wide gold-leaf mural accent panels designed for tub areas; the five new natural panels; and enhanced Riviera and American Tiki patterned panels.

Homeowners can install the 4-foot panels and mural accent panels over any solid backing with a specially-formulated adhesive. Matching moldings are available at local lumberyards. For easy application, Marflex plank and ceiling block come with longer and grooved edges. Wallboard adhesive and simple metal clips are used to secure the panels and blocks. Since there are no quarter inch thick, they can be installed over old walls or new framing. The prefabricated hardboard also can be used effectively for sliding doors.

Highly resistant to heat and moisture, plastic-finished hardboard is ideal for kitchen and bathroom modernization projects. Hard wear does not affect the permanent surface of the decorative paneling.

Only ordinary carpentry tools - a hammer, saw and level - are needed to install plastic-finished hardboard. Detailed installation instructions are included in each carton of paneling. A combined touch-up pencil is provided with the material.

**McLaughlin Joins Real Estate Firm**

George J. McLaughlin has joined William L. Kunkel & Co., 41-year-old real estate firm with headquarters in Des Plaines, where he is engaged in property management and general real estate sales.

McLaughlin recently was named as an administrative assistant to the vice president in charge of production of the General Telephone Directory for the DuSable. He had been quality control supervisor and personnel department supervisor for the same company.

BY CARLTON SMITH AND RICHARD PUTNAM

Newspapers periodically

carries advertisements and

demanded to know how one lives

to be 100 years old.

Almost always, these old

people originally credit such

things as eating good food, taking

exercise, or wearing a nightgown

the night.

Now, however, the scientific

mind has been put to work on

the problem and has produced

a number.

Insurance companies' actuaries

seem to have discovered that longevity is

a hybrid of buying and

living.

Obviously, this is a matter of

great importance to insure

since its security is a special

kind of policy that guarantees to

pay you to

much per month for as long

as you live. If annuity buyers

are going to live longer than

the average, the company

wants to know about it.

No one is sure yet whether

this phenomenon occurs

because healthier people tend

to buy more annuities in the

first place, or whether having

a guaranteed income forever

relieves anxiety-shedders of

worry and thus prolongs life.

Whereas the case, if this

form of solidly approved

gambling appeals to you, you

ought to learn a little

something about annuities.

Insurance companies' actuaries

seem to have discovered that longevity is

## Welcome to our new, exclusive 1/10% Mortgage Interest Rate

We've broken with the traditional 1/4% increments for variations in home loan interest rates. Our new 1/10% progressive rate structure will provide a new flexibility to assure home buyers of the most equitable rate at all times. And it can provide considerable savings over the term of a mortgage depending upon the original down payment. It's just another example of

Bell Savings' constant effort to make home ownership easier and more enjoyable. Bell is known for making the best possible commitment on the best possible terms. With careful attention to the details that can reduce the immediate cash outlay for home buyers. And offering such items as pre-payment privileges and open end provisions tailored to your needs.

## Real Estate Salesman Of The Day

### JACK HOLDING,

REPRESENTATIVE

### Jack L. Kemmerly, Real Estate

Jack Holding has been a resident of Polkine for approximately 20 years. His knowledge of its neighborhoods and people goes way back and his experience in the field of real estate does the same. When Jack L. Kemmerly decided to open his own firm, in 1961, Jack Holding became his first employee. Jack has been among the leading salesmen ever since, for the last 2 years his involvement in real estate transactions totaling over \$1,000,000. per year speaks for itself. His formula for success is a simple one based on integrity, honesty, and keeping up with the current market.

Jack, his wife, Dolores, and his 2 teen-age sons live in Winston Park. Dolores works for Illinois Bell Telephone Co. in Polkine, but she and Jack still find time for the Tuesday Night Mixers Bowling Team and frequent evenings spent dancing, another favorite pastime of both of them. Add to that a few mornings on the golf course with fellow Realtors and Jack's free time is all accounted for, what with a usual work schedule of 10 to 12 hours a day, 7 days a week. That may seem like a lot to some, but in Jack's words, "I like my work - that makes the difference."

## IT'S GREAT TO HAVE A PROFESSIONALLY QUALIFIED FRIEND IN THE PICTURE...

Somewhere there is a home just right for your family. If it is on the market, your friend, your Realtor, will know about it. By contacting him first, you can save many hours of wasted time, and perhaps avoid the disappointment of a fruitless search. As a member of the Northwest Suburban Board of Realtors, he knows the local market thoroughly. His job is to be helpful to you. Call him on any matter pertaining to real estate.

MAKE YOUR NEXT MOVE THROUGH A REALTOR OR ONE OF HIS QUALIFIED REPRESENTATIVES.
